SUBJECT INDEX TO VOLUME 54

AHA [EA] triggers oxidative stress, 477

Behavior of heavy metals by CaEDTA, 167

Cadmium suppresses chromium–induced apoptosis, 159
Chloral hydrate metabolism in mice and rats, 209
Chloropropham disruption of cell division, 319
Cytochrom P–450 and PCB's in mink, 377

Disposition of 2–methylimidazole in rats, 121

Effects of bicyclophosphate on monoamines, 421
Effects of PCB–Contaminated fish on mink, 343
ER and PR in mink fed Great Lakes fish, 403
Estimation of absorption of contaminants, 145

Fiber length and toxicity, 243

Heavy metals and fertility, 593
HPA axis effects of tri–inhalation, 193
Hydroquinone topical bioavailability, 301

Immunotoxicology of methyl parathion, 1
Induction of P-450 and GST by motorcycle exhaust, 509
Inorganic and organic levels of urine, 431

Lack of immunosupresssive effects, 561
Lead effects on reproductive development, 77

Mancozeb toxicity, 459
Mechanisms underlying lead effects on growth, 101
Mercury and lymphocyte reactivity, 547
Metallothionein levels in human lymphocytes, 445

NDHS and 2-NDHSA nephrotoxicity, 613
Neurobiochemical actions of hydrogen sulfide, 491
Ni placental toxicity, 37

Organochloride modulation of DMBA disposition, 227

Particulate-induced oxidant stress in AM's, 529
Perinatal dioxin alters thermoregulation, 647
Pet dogs as sentinels of indoor cancer risk, 579
Pesticides and endocrine function in ewes, 21
Prevention of retinal pericyte loss, 467

Respiratory symptoms from isocyanates, 335

Sabacute toxicity of refinery scrubbing solution, 49
Static magnetic field and immune parameters, 63

Toluene inhalation inhibits lung MFO activity, 633
Trichloroethane brain dosimetry, 285
TTCE–Induced decrease of dolichol levels, 133

Urinary metabolites after long-term arsenic, 179

Ventilatory Responses to Acid Aerosols, 261
